Preaching the Word - Caring for the Brotherhood

2 March 2023

Myanmar

Civil unrest continues unabated throughout the land, posing risks and dangers for any who do not support the military regime. Our brothers and sisters in Myanmar need our continuing prayers for their safety and well-being. With some success, one of our brothers in Yangon continues to show and teach the word of God in his wider neighbourhood. May our Father bless our brother's devotion and tenacity.

Zoom session with brothers and sisters in Yangon, Myanmar

Thailand

Memorial Meeting in Northern Thailand

A team of fieldworkers is currently in northern Thailand, visiting and supporting our brothers and sisters. But their primary mission is to find a suitable location for the new Thailand Learning Centre. We have a target date of the middle of 2023 to begin courses, so it is important during this short visit to find and secure a suitable location.

The Thailand Learning Centre will teach attendees to read and understand the Bible and will also offer a range of "Life and Living" courses. These latter are designed to help attendees develop or enhance employment types of practical skills in areas such as basic computing and English language (only a couple of examples). Other courses are designed to help attendees to develop awareness of, and some experience in, softer types of "living" skills to better enable them to live Godly and positive lives. Courses will cover such areas as morals and conscience, relationships, teamwork and running a home – again, these are only a few examples.

The Learning Centre will offer these courses at no cost to attendees. Attendance will be by invitation only. The Learning Centre will

accommodate and feed attendees and staff for the duration of a course. Courses are designed to run anywhere from 1 or 2 days to up to 5 months. We are looking for volunteers to assist with various operational aspects of the Centre. May our Heavenly Father advance and bless our Thailand Learning Centre.
